

## OBJECTIVE

The objective of the Community Transcultural Support Services (CTSS) is to provide health support services for all who experience cultural and linguistic barriers which prevent them from having accesses to necessary health information and services in local health and psycho-social service systems.

The health promotion is an on-going process as a charitable organization.

## POLICIES

### By-laws

The contents of By-law established on July 30, 2010 maintained.

### Finance & funding

The CTSS is financially supported by government and private funders, and from community donations. The CTSS collects membership fees from health clients of CTSS. Such membership fees are based on health clients' interests, but not mandatory.
